

SYSTEK Training Webinars – October and November 2011

Four hour webinar - Registration: US\$395

Early bird 10% discount (One week prior)

1. Gas Pipeline Hydraulics	Oct 7 & Nov 18, 2011	8:00 AM to 12:00 PM (PST)
2. Liquid Pipeline Hydraulics	Oct 14 & Nov 10, 2011	9:00 PM to 1:00 PM (PST)
3. Centrifugal Pumps	Oct 18 & Nov 21, 2011	10:00 AM to 2:00 PM (PST)

The four hour webinar will cover basic pipeline hydraulics, line sizing and pumps/compressor stations. Liquid/gas properties, Reynolds number, pressure drop equations, and pipe MAOP will be reviewed. Includes Q&A session.

Eight hour webinar - Registration: US\$595

Early bird 10% discount (One week prior)

1. Gas Pipeline Hydraulics	Oct 21 & Nov 9, 2011	7:00 AM to 3:00 PM (PST)
2. Liquid Pipeline Transients	Oct 17 & Nov 11, 2011	7:00 AM to 3:00 PM (PST)
3. Centrifugal Pumps	Oct 19 & Nov 22, 2011	7:00 AM to 3:00 PM (PST)

The eight hour webinar (gas pipeline) will cover basic steady state pipeline hydraulics including line sizing for specified flow and pressure, compressor stations, branches and loops. Includes Q&A session.

The eight hour webinar (liquid pipeline) will cover basic steady state pipeline hydraulics and introduction to transient hydraulics (surge analysis) including line sizing, pump stations, branches and loops. Pressure rise due to sudden closure of valves and sizing PRVs will be discussed. Includes Q&A session.

Two or more attendees from the same company get a discount of 10%.

Attendance will be limited to 12 participants at each webinar. You will need a broadband internet connection. Audio options include use of a headset or a call-in phone number. We use Citrix GoToMeeting. To register, call with a credit card or email/fax us your information. 10% discount available for multiple attendees from the same company. We welcome suggestions for additional topics and features for improvement of the webinars.

Customized webinars available to suit your schedule. Minimum 6 attendees per Company. Please call to schedule a custom webinar.
